## Overall Review

★★★★☆ | 4.2

### It is great!

★★★★☆

I bought this for my husband and my son who both work as power linemen. They are required to wear FR uniforms which is heavy long sleeves, long pants, hard hats, steel toe boots, and gloves. During the hot summer heat in Georgia, temps have been getting to the mid to upper nineties daily and with no breeze and the humidity being unbearable, they sweat profusely for 10-12 hrs outside and dehydration is always an issue with all of these guys. They normally drink pedalyte in the afternoons to help restore electrolytes they've lost. They have now been using these packets and say they work surprisingly well! Anything that helps keep my guys safe, deserves a 5 star review!!

- BB

### Tastes so fabulous!

★★★★★

These electrolytes do two amazing things for me, especially living in Florida. 1) They instantly energize me when I start to feel tired and know it is the heat, despite being in air-conditioning. After a bike ride, it's the PERFECT ending and refresher. 2) When I wake up in the middle of the night, and seem dehydrated, and have a hard time getting right back to sleep, I take a glass of water and these electrolytes and wow! I am back asleep in 5 minutes. Amazing. Plus this raspberry flavor and NO SUGAR is so so so yummy.

- KH

### Hot Yoga Bff

★★★★☆

I started getting flu like symptoms after hot yoga which I was practicing three to five times a week. Body aches, nausea, headache that wouldn't quit. Everyone said I needed to drink more water but I was drinking so much and it wasn't helping. My friend, who is a long distance runner, said I needed a good electrolyte powder and this stuff did the trick! I feel great after practice now, I add one packet to a 24oz bottle during practice and no more post workout flu. I don't love the flavor but it's tolerable, reminds me a bit of chewable Tylenol... going to try the lemon lime next!

- EJ

### Works as intended!

★★★★★

### Raspberry tastes great

★★★★☆

Love the taste. Wish had a bit more trace minerals in it but for the price and quality I am happy. Delivery time is always great.

# About.

As your body ages, it becomes tougher for it to digest and absorb supplements. The solution: Dr. Price's powdered vitamins and minerals—a vital breakthrough in supplement bio-availability. Dr. Price's supplements absorb into the bloodstream and cells without the need to be broken down in the digestive system.

Each of Dr. Price's formulas were designed with a specific purpose. The utmost care has been given each formula so that each not only fulfills its purpose, but is incredibly flavorful also.

Dr. Price's Vitamins was co-founded by Dr. Stephen Price and Michael Wiseman in 2009. They had searched long and hard for a highly bio-available vitamin—and had failed to find it. They decided to formulate their own, which they have done with outstanding success.

Dr. Price has been a preeminent nutritionist and chiropractor for over 30 years. Throughout his career, and the care of more than 100,000 patients, Dr. Price has carried on a parallel line of scientific and medical research in an effort to identify the ideal nutritional supplements for the human body.

# Hydration Balance.

Proper hydration and electrolytes are vital to leading a healthy lifestyle. The cells in your body need a perfect balance of water and minerals.

## Signs of Dehydration

### Headaches

Frequent headaches—especially in hot, humid climates or following heavy physical exertion—can be a sign of dehydration.

### Fatigue

Fatigue—meaning a consistent feeling of tiredness—is often a sign of dehydration.

### Craving Sweets

When your body is dehydrated, it often craves sweets. Sweets, unfortunately, are no substitute for proper hydration.

### Constipation

Constipation—the inability to have a proper bowel movement—is often a sign of dehydration.

### Thirst—Dry Mouth

One of the primary ways your body has of telling you that it needs to be hydrated is through the feeling of thirst.

## Electrolyte Balance

The body requires a greater amount of electrolytes than most sports drinks or gels can give you. Dr. Price's Electrolyte Mix provides your body with a totally balanced bio-available electrolyte source, allowing you to meet your body's electrolyte needs.

## Proper Hydration

16oz  
of Water

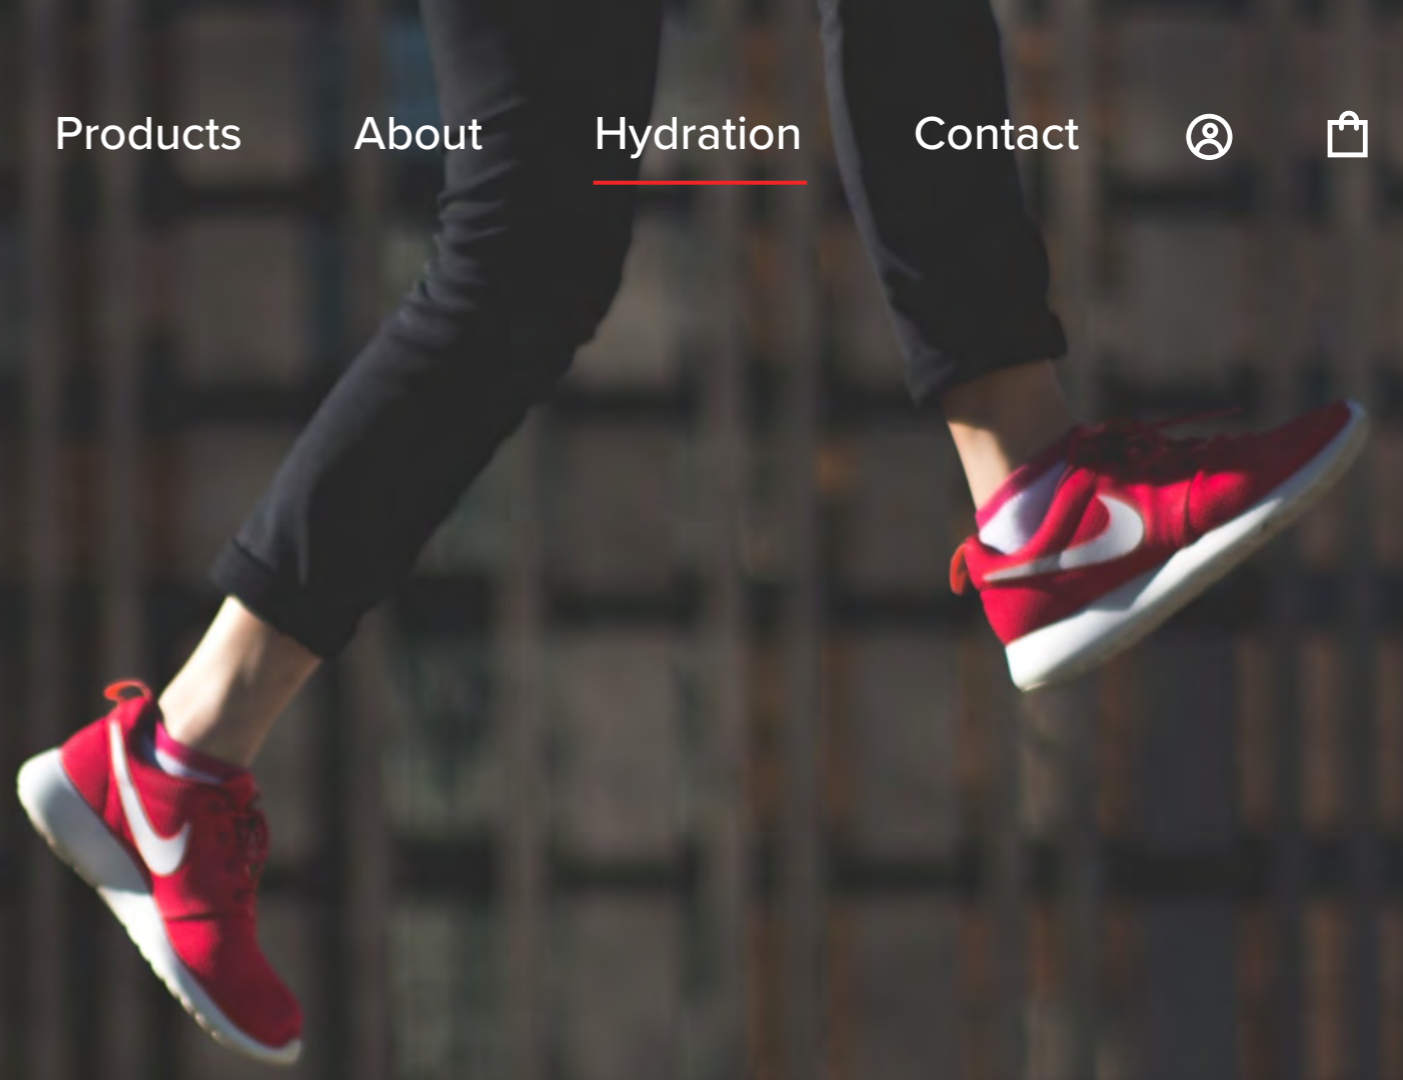

1 Electrolyte  
Packet

Proper  
Hydration

Dr. Price arrived at this precise formula through years of experience, treating thousands of patients. It provides the exact right amounts of salt, potassium and trace minerals.
